1. A Father's Letter To His 18yr Old Daughter As To Whether She Should Take The COVID You Know What

I thought long hard about whether I would post this letter as a 🧵 In the end I decided to because I know many families are in the same situation as I am.

New 🧵 1/14

2. Teenagers are notoriously difficult to talk to at the best of times. They often feel they know more than their parents do even though their parents have the benefit of experience. My daughter is no different.

3. She is rightly fed up with the whole COVID situation and the last thing in the world she wants is to hear me rattle on about Covid. That's why I put pen to paper as "The pen is mightier than the sword".

It is a long letter running to 8 pages

4. More than likely not everything in this letter is 100% accurate as I'm sure I've made mistakes interpreting data & understanding the science. Hopefully though it is accurate enough that she can make her own "informed decision" whether she decides to take it or not.

5.

Dear

This is probably the most important letter I will ever write to you. The reason I am writing this letter is that I have a responsibility as a parent to protect you.

I have deliberately shied away from talking about this until you had finished your exams and returned from your holiday. I know the last 18 months have been very difficult and you have missed out on some major milestones in your life. I have done my best to keep life as normal as possible for you in what are unprecedented times.

You are now 18 and an adult and are going to have to make one of the most important decisions of your life with regards to taking the Covid vaccine. As an adult that is your choice.

However, before you take that decision it's critical that you make that decision based on "Informed Consent". What I mean by "Informed Consent" is that you have all the facts at your disposal before you make that decision.

Unfortunately, if you were to go to a Doctor's and have the vaccine, you would not be given any of the information I am about to share with you. That is why this letter is so important.

I have always researched everything diligently. Everything I am about to share with you is a fact which I can back up. I have put little numbered footnotes so you can reference everything I am saying.

Please take your time reading this letter as it is so important.

The vaccine appeared at the very end of 2020 so has been in operation for 6 months. There was very little data at the beginning as it was so

new but more is being collated every day. Even before the vaccine appeared here are some little known facts which the TV, radio, newspapers and social media aren't telling you.

1. All of the vaccines are in clinical trials until 2023. They have been granted a license which is known as EUA which stands for Emergency Use Authorisation. None of the vaccines can have full approval until 2023. This has never happened before in the history of medicine. If anyone takes the vaccine they are participating in the largest worldwide clinical trial ever undertaken.
2. There are no medium or long term safety studies. There can't be as the vaccine is so new.
3. This is an entirely new type of vaccine which has never been developed before. In actual fact, it is a gene therapy and not a vaccine at all in the traditional sense. Most vaccines take 5-6 years to develop, this took 9 months.
4. The pharmaceutical companies have full indemnity. What this means is if anything happens to a person after they take the vaccine the pharmaceutical companies can not be sued. Any company that believes in its product to be 100% effective and safe would stand behind it 100%. They are not doing this.

You have had all your vaccines throughout life and I am pro-vaccine. This gene therapy however is deeply concerning to me.

Back in 2009 there was the swine flu epidemic which turned out to not be an epidemic at all. A vaccine was developed which caused the deaths of 47 people worldwide. The vaccine was immediately pulled from the market.

Nobody knows how many deaths there have been worldwide due to the Covid vaccine. We do know however there have been more than 28,000 deaths between the USA and Europe due to the vaccine ¹

What is very concerning is that the total amount of deaths from the Covid vaccine in 6 months is greater than the deaths of all combined vaccines for the previous 13 years ²

What is not being covered by the media in Ireland are the true extent of deaths and side effects from the Covid vaccine. In America they have what is know as the VARS database where patients and doctors can input side effects from vaccines as well as if people die due to them. In Europe it is called EUDRA.

A lawsuit has also just been filed in USA suing the Federal Government for the alleged cover-up of 45,000 vaccine deaths. This is very worrying.

Also, it is recognised that only 1% of people ever bother to report side effect problems. Even if that number was 10% the deaths and side effects are much higher than we are being lead to believe. The side effects are already running in to the millions.

A couple of weeks ago The Irish Examiner printed an article on July 3rd stating that the blood clot risk in 18-39s from the AstraZeneca vaccine is twice as high as Covid death risk.

Blood clots are even higher in Pfizer and Moderna. In the last few days the hashtag clotshot has been appearing on Twitter, Snapchat, TikTok and Instagram. Your generation is becoming more aware of the side effects of the vaccine

<https://www.irishexaminer.com/news/arid-40328123.html>

What is also very concerning is that 20 other countries have banned or suspended the AstraZeneca vaccine yet Ireland is recommending it to your age group. It is the same with Johnson & Johnson. Why would they do this.

Even the inventor of the MRNA vaccines Robert Malone is advising against the use of the vaccines. He is very concerned about the effect of the vaccine on women's reproduction as there is no long term data on any of the vaccines

There also seems to be a massive problem of myocarditis for younger people who have received the vaccination. Myocarditis ³ is an inflammation of the heart muscle which can be fatal. Israel is one of the highest vaccinated countries in the world and they have seen a much higher incidence of myocarditis than normal.

The US military have also found the same in the military who have had the vaccine.

<https://www.reuters.com/world/us/heart-inflammation-after-covid-19-shots-higher-than-expected-study-us-military-2021-06-29/>

What the media isn't telling you is that Covid has killed nobody in your age group. If someone does catch it they have a 99.997% chance of recovery. Being young, you have a perfectly healthy immune system which has always protected you for the last 18 years. ⁴

The people who it has effected are normally very elderly 85 plus and have 2 or more underlying health conditions

The media is also concealing from you the damage this vaccine is doing to people. Any time people put a video up it is removed on social media. Why would they be doing this if it was 100% safe. This really worries me that they are trying to hide the truth.

You will need to download this app called Telegram then type in Covid Vaccine Victims. There are over 115,000 members. You can see examples of what people are having to live with. It is very scary.

The truth of the matter is the vaccine itself doesn't even protect you from getting Covid or passing it on, all it does is reduce the symptoms. You are aware of this as Mum got Covid after being double jabbed.

And for a girl your age, it's just like a sniffle or a cold. In actual fact what is happening now is that a percentage of the people who are being vaccinated are actually catching Covid. You really have to wonder what the point of the vaccine is ?

I know that over the coming months your age group and younger will be put under huge pressure to take the jab. They will try and tell you that is the only way you will get entry to restaurants, pubs, go to university etc. This is coercion and is illegal.

This will not succeed in the long run. There are already huge protests taking place in France, UK and Greece with millions on the streets. Even just last week there were between 3 and 5 thousand people protesting over these vaccine passports. Yet the media are covering it up.

Hopefully we will see some massive changes in the next few months with regards to the legality of what is going on.

You should never have to take a vaccine to participate in society, especially one that is still in clinical trials. Your human rights have been trampled on for the last 18 months and that is terribly wrong. Everything that has happened this last 18 months has been terribly wrong.

I love you very much and will respect whatever decision you take. I just wanted you to be armed with all the facts before you make your mind up.

Love

Dad

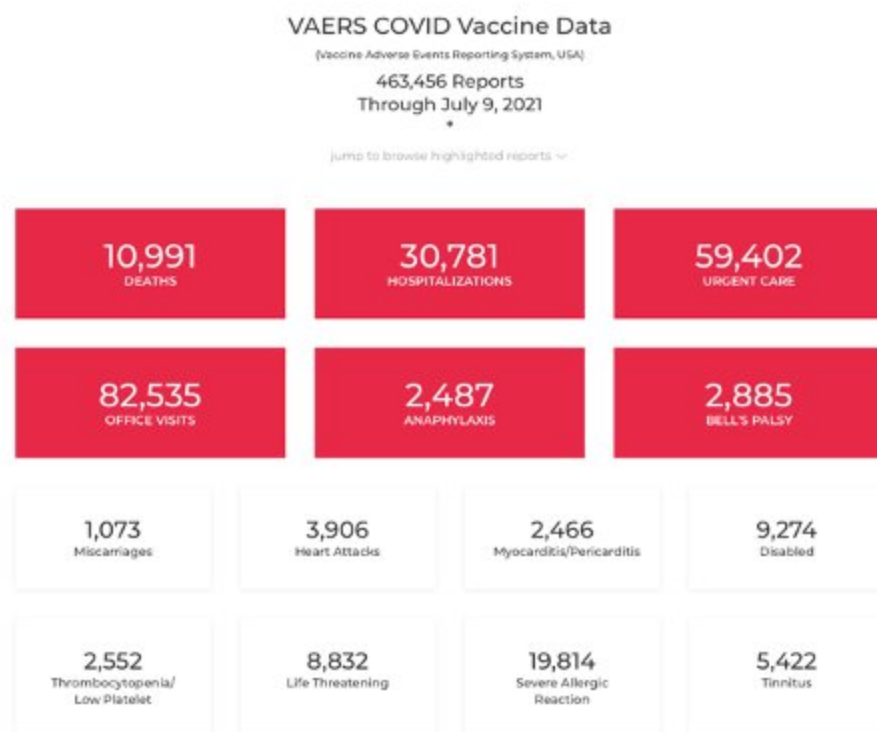

Notes

¹ Death Rates

USA 10,991 Deaths

² Covid vaccines caused more deaths in the first 6 months of 2021 than all vaccines combined in the last 13 years

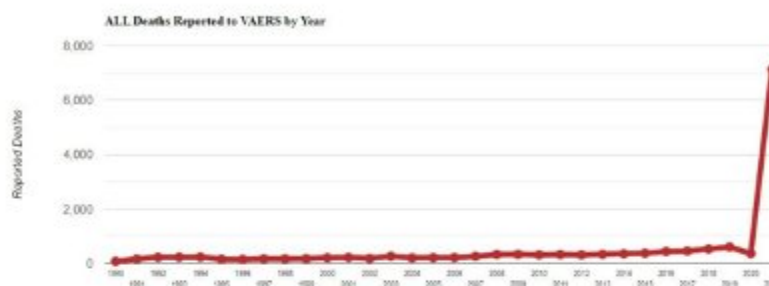

12.

UPDATE: 6,985 Dead from COVID Vaccine Across the US and 411,911 Adverse Reactions Reported – Now a Top 50 Cause of Death in the Country

9 July 2021 News

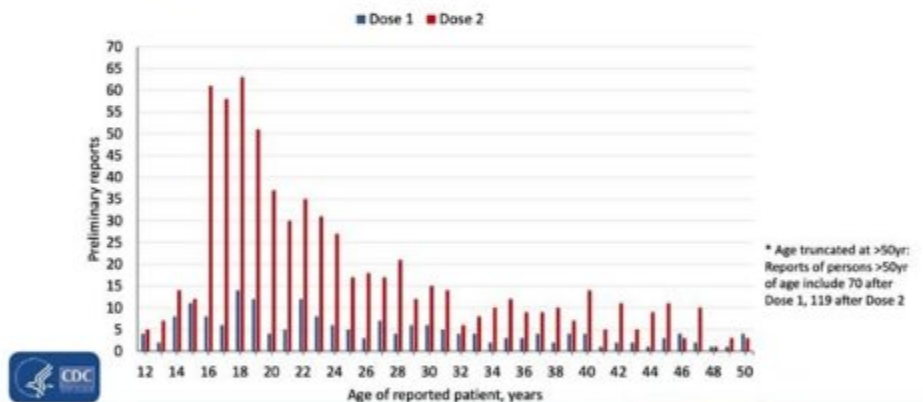

Reported Deaths post COVID Vaccine: Total 6,985

3 Myocarditis effecting 18yr olds more than any other age group

Preliminary reports of myocarditis/pericarditis to VAERS after mRNA COVID-19 vaccination by age and dose number* (as of Jun 11, 2021)

4 Covid Survival Rate

13. I do know for a fact she has read the whole letter and it has certainly given her food for thought. She is beginning to question things more amongst her peers.

Please feel free to beg , borrow or steal any of it should it help in any way.

14. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
