10. The OSF has also donated \$569,154 to the International Disability Law Summer School. Much of the content on the course seems to be derived from the UN

The 9th International Disability Law Summer School is the biggest disability law Summer School in the world, with a focus on the UN Convention on the Rights of Persons with Disabilities. The theme for the 2017 Summer School is on psychosocial disability. It will focus on facilitating access to justice, recognition of legal capacity, the right to liberty and community living. The aim of the 5 day Summer School is to equip participants with the insights and skills necessary to help them translate the generalities of the UN Convention into tangible reform for persons with disabilities.

20. Like The Bill & Melinda Gates Foundation, Soros invests a lot of money in Ireland. This is under the guise of Human Rights.

The truth of the matter though is in the “9 Things You Need to Know About George Soros”

It all looks very philanthropic, when in actual fact, it isn't

21. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
