T Read on Threader

1. "What Have The World Economic Forum Got Planned For Us Next ?"

The WEF are making quite the name for themselves when it comes to predicting events. New 🧵 1/25

2. In October 2019 there was Event 201 which predicted the Covid outbreak 7 weeks later. Fast forward to July 8, 2020 and the WEF hosted Cyber Polygon 2020 which was a month after they announced The Great Reset.

centerforhealthsecurity.org/event201/about

3. Another event which has slipped under the radar was Clade X in 2018. This was hosted by The Johns Hopkins Center for Health Security (JHCHS) who also hosted Event 201 a year later. Clade X was a pandemic tabletop exercise held in Washington, DC.

4. JHCHS has received hundreds of millions from BMGF over a 20 yr period and is also in bed with the Rockefeller foundation. They have actually received 218 grants since 1999

Committed Grants; sort by Committed Amount Descending

Committed Amount Descending

GRANTEE	DIVISION	DATE	REGION SERVED	COMMITTED AMOUNT
Johns Hopkins University	Global Health	JUNE 2004	GLOBAL (+2)	\$81,091,647
	GRANT TOPIC	DURATION (MONTHS)	GRANTEE LOCATION	
	Tuberculosis	117	Baltimore, Maryland, United States	
Johns Hopkins University	Global Development	NOVEMBER 2012	GLOBAL (+2)	\$78,267,344
	GRANT TOPIC	DURATION (MONTHS)	GRANTEE LOCATION	
	Family Planning	120	Baltimore, Maryland, United States	
Johns Hopkins University Bloomberg School of Public Health	Global Development	JULY 2016	GLOBAL (+2)	\$65,949,194
	GRANT TOPIC	DURATION (MONTHS)	GRANTEE LOCATION	
	Family Planning	65	Baltimore, Maryland, United States	
Johns Hopkins University	Global Development	AUGUST 2009	GLOBAL (+1)	\$46,871,724
	GRANT TOPIC	DURATION (MONTHS)	GRANTEE LOCATION	
	Family Planning	75	Baltimore, Maryland, United States	
Johns Hopkins University	Global Health	NOVEMBER 2008	GLOBAL (+5)	\$40,940,324

An invitation-only audience of nearly 130 people attended the exercises, and a livestream of the event was available to everyone. Video coverage is available [here](#).

Exercise team

Eric Toner, MD, is the exercise team lead from the Johns Hopkins Center for Health Security. Crystal Watson, DrPH, MPH and Tara Kirk Sell, PhD, MA are co-leads from the Johns Hopkins Center for Health Security. Ryan Morhard, JD, is the exercise lead from the World Economic Forum, and Jeffrey French is the exercise lead for the Bill and Melinda Gates Foundation.

Exercise team members are Tom Inglesby, MD; Anita Cicero, JD; Randy Larsen, USAF (retired); Caitlin Rivers, PhD, MPH; Diane Meyer, RN, MPH; Matthew Shearer, MPH; Matthew Watson; Richard Bruns, PhD; Jackie Fox; Andrea Lapp; Margaret Miller; Carol Miller; and Julia Cizek.

5. The purpose of the Clade X exercise was to illustrate high-level strategic decisions and policies that the United States and the world would need to pursue in order to prevent a pandemic or diminish its consequences should prevention fail.

centerforhealthsecurity.org/our-work/event...

6. So what about Cyber Polygon & Cyber Attacks. Who best to ask but Klaus Schwab

"We all know, but still pay insufficient attention to the frightening scenario of a comprehensive cyber attack, which would bring to a complete halt to the power supply...

7....transportation, hospital services our society as a whole. The COVID-19 crisis would be seen in this respect as a small disturbance in comparison to a major cyber attack....

8. ...to use THE COVID-19 crisis as a timely opportunity to reflect on the lessons the cyber security community can call on & improve our preparedness for a potential cyber pandemic"

youtu.be/EOvz1Flfrfw

9. But that's not all. Jeremy Jurgens also backed up what Schwab said in a later interview in November, 3 months after Cyber Polygon took place. Jurgens is the Managing Director & Head of the WEFs Centre for the Fourth Industrial Revolution.

10. He "warned of another crisis which would be faster and more significant than Covid 19"

youtube.com/watch?v=kixgDm...

The central theme of the Cyber Polygon 2020 exercise was "Digital pandemic: how to prevent a crisis and to reinforce cybersecurity on all levels."

11. Its goals were to develop the teams' competencies in repelling cyber attacks, engage the management of global organizations and corporations in the cybersecurity dialogue and raise public awareness in cybersecurity.

cyberpolygon.com/agenda/

12. One of the speakers was Tony Blair who spoke on "A time of change: how is 2020 transforming our attitude to digitalisation?"

The same Tony Blair who is pushing vaccine passports and has received 15 mil from BMGF.

GRANTEE Tony Blair Institute for Global Change	DIVISION Global Development +1	DATE NOVEMBER 2019	REGION SERVED GLOBAL +1	COMMITTED AMOUNT \$3,472,939
	GRANT TOPIC Agricultural Development +2	DURATION (MONTHS) 24	GRANTEE LOCATION London, United Kingdom	
GRANTEE Tony Blair Institute for Global Change	DIVISION Global Growth & Opportunity	DATE NOVEMBER 2019	REGION SERVED GLOBAL +1	COMMITTED AMOUNT \$5,000,000
	GRANT TOPIC Agricultural Development	DURATION (MONTHS) 36	GRANTEE LOCATION London, United Kingdom	
GRANTEE Tony Blair Institute for Global Change	DIVISION Global Development	DATE MAY 2019	REGION SERVED GLOBAL +1	COMMITTED AMOUNT \$110,000
	GRANT TOPIC Global Health and Development Public Awareness and Analysis	DURATION (MONTHS) 19	GRANTEE LOCATION London, United Kingdom	
GRANTEE Tony Blair Institute for Global Change	DIVISION Global Development +1	DATE OCTOBER 2017	REGION SERVED GLOBAL +1	COMMITTED AMOUNT \$399,994
	GRANT TOPIC Global Health and Development Public Awareness and Analysis	DURATION (MONTHS) 26	GRANTEE LOCATION London, United Kingdom	
GRANTEE Tony Blair Institute for Global Change	DIVISION Global Development	DATE OCTOBER 2017	REGION SERVED GLOBAL +1	COMMITTED AMOUNT \$1,846,920
	GRANT TOPIC Global Health and Development Public	DURATION (MONTHS) 48	GRANTEE LOCATION London, United Kingdom	

13. In his talk he even said “Digital ID for me is a very big part of the future,” said Blair. “Inevitably, governments are going to move in this direction – absolutely, inevitably,” he added.

14. WEF has announced the 2021 Cyber Polygon edition will be taking place in July. It will simulate a fictional cyber attack with participants from dozens of countries responding to “a targeted supply chain attack on a corporate ecosystem in real time”

cyberpolygon.com

15. On Jan 18th 2021 the WEF posted a minute long video about "A cyber-attack with Covid-like characteristics that would spread faster and further than any biological virus"

youtube.com/watch?v=-ooZA1...

16. What can we expect. Amy Zegart describes it best in a 2015 Tedtalk

“But the cyber threats of tomorrow won't just make our information unsafe, they could make our physical world, unsafe too. The cyber threats of tomorrow, could disable the cars that we drive the aeroplanes

17. that we fly, they could turn off power or water to cities across the country for days or weeks or longer. They could incapacitate our military, or even turn our own weapons against us. The cyber threats of tomorrow..

18...could affect anything that requires a networked computer to operate. And increasingly, that means everything”

(Just go to 16.05 for the last 30 seconds)

[youtube.com/watch?v=JSWPoe...](https://www.youtube.com/watch?v=JSWPoe...)

I should also add that Zegart is also in the WEF as well as the Council Of Foreign Relations

The screenshot shows the profile page for Amy Zegart on the World Economic Forum website. The browser address bar shows 'weforum.org/people/amy-zegart'. The navigation menu includes 'Agenda', 'Platforms', 'Reports', 'Events', and 'Videos'. The profile picture is a headshot of Amy Zegart. Her name is listed as 'Amy Zegart' with the title 'Co-Director, Center for International Security and Cooperation, Stanford University'. A detailed bio follows: 'Amy Zegart is the Co-Director of Stanford University's Center for International Security and Cooperation (CISAC); the Davies Family Senior Fellow at the Hoover Institution; a Senior Fellow at the Freeman Spogli Institute for International Studies; and Professor of Political Science (by courtesy). Her research examines U.S. grand strategy, cybersecurity, intelligence challenges, and coercion. She served on the Clinton Administration's National Security Council staff, spent several years as a McKinsey & Company consultant, and is a lifetime member of the Council on Foreign Relations. She holds a Ph.D. and M.A. in political science from Stanford University and an A.B. in East Asian Studies from Harvard.'

19. What has happened since Klaus & Jurgen's proclamations. It seems like the pump is being primed. They are definitely sowing the seeds. There have been numerous attacks. Here are just a sample of some of them

20. In November 2020 Food-Supply Giant Americold Admits Cyberattack

threatpost.com/food-supply-am...

On November 16th 2020 the FBI tweeted out about cybersecurity, and even tagged the World Economic Forum

 **FBI** 
@FBI 

#FBI Director Christopher Wray participated in the World Economic Forum's cybersecurity summit today to discuss the heart of the FBI's cyber strategy: working with government and private partners to tackle the cyber threat as a global community. 21. On May 9th 2021 there was an attack on a fuel pipeline operator in USA which services the eastern board of the States. Gas prices increased to their highest levels in 7 yrs

news.sky.com/story/colonial...

22. Less than a week later in Ireland the health service the HSE shut down its IT systems due to a cyber attack. They even went so far as to call it "possibly the most significant ever on the Irish State" (Remember what Schwab said about hospitals)

[irishtimes.com/news/health/hs...](https://www.irishtimes.com/news/health/hs...)

23. In what seems like something from a Hollywood script, the attackers have allegedly demanded Bitcoin payment as ransom. The ransomware is also a variant.

You couldn't make this stuff up if you tried.

[irishtimes.com/business/techn...](https://www.irishtimes.com/business/techn...)

The attack, which began early on Friday morning, has been identified by the HSE as a variant of Conti ransomware, which can steal data from the victim as well as encrypt it. Attacks are typically accompanied by a ransom demand, usually to be paid in cryptocurrency.

24. But who would stand to benefit ? The globalists, the UN, the WEF all would because it is yet another of those global problems, requiring global solutions.

What they want everyone to believe is that no one government or organisation can save us but global governance can.

25. You know the drill 😊 I write these 📖 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks
