## 1. Why Is Ryan Tubridy Intent On Terrifying Irish People About Covid On The Radio & TV

Ryan Tubridy is the face of RTE and has been leading the country on a merry propaganda dance for the last 18 months

New 🧵 1/26

2. Ryan Tubridy is undoubtedly Ireland's most recognisable TV celebrity fronting "The Ryan Tubridy Show" on RTE Radio 1 and "The Late Late Show" on RTE 1. He reputedly earns €495,000 pa.

Hundreds of thousands of people tune into his radio show daily and TV show every Friday

3. Ryan's grandfather was Todd Andrews, Chairman of RTE authority in the 1960s. He also has relations involved in politics

Ryan has rapidly climbed up the RTE ranks & was given the most prestigious job of fronting "The Late Late"

He's been earmarked for the top for a long time

4. His brother is Prof Niall Tubridy a Neurologist from St Vincents. He has just had a paper published called

"Vaccine hesitancy among people with multiple sclerosis" which was funded by Novartis.

[msard-journal.com/article/S2211-...](https://msard-journal.com/article/S2211-...)

5. Back to Ryan though.

What is really important to understand is that everybody in a position of influence be it a politician or tv celebrity is no more than an actor. That is their job.

They are acting on a huge stage especially when it comes to television.

6. Ryan's stage for the radio has been Radio 1. He has used it to constantly plug all things Covid. He has also made numerous references to the "new world order" and "new normal". I put together a  dedicated to it

🇮🇪 & 🇬🇧 COVID 📰 📰 📰

@Threadslrish

1. "Did You Know The New World Order Has Constantly Been Mentioned In The Irish Mainstream Media Since June 2020"

The internet has been blowing up in the last 48 hours with people trying to find out about the "New World Order" or NWO.

7. The Late Late has always been considered "light entertainment" with a very captive, malleable audience. However since Covid kicked off in March 2020 it has taken a sinister turn

It has been used solely as a govt propaganda tool. Most people don't even realise it when watching

8. In March 2020 he started to set the scene for the next 18 months. The goal was fear & control.

"Your sacrifice through self-isolation will save lives", "Obey the simple rules" he said

Everything was about all being in it together & being good citizens  
[youtu.be/rAz1dqJH3fk](https://youtu.be/rAz1dqJH3fk)

9. From the start people were being manipulated.

In April 2020 Ryan & Clare Byrne, within a month of each other, both coincidentally got Covid. What were the chances.

Clare hosts her own propaganda shows on RTE. Covid was that serious she was able to host it from a shed.

## Claire Byrne says she still suffers Covid-19 after-effects

10. It was really quite clever what happened. Both work for RTE. Both allegedly got Covid and survived to tell the tale. Both were portrayed as heroes in the media. Both have been relentless fear mongers from the get go since.

But let's just focus in on Ryan our hero

## 'I was very, very fortunate': Ryan Tubridy returns to air after recovering from Covid-19

Tubridy, who is 46 years old, confirmed last week that he had tested positive for the virus.

RTÉ PRESENTER RYAN Tubridy has spoken about his experience having Covid-19, saying that he was “very, very fortunate” in that he just had a “persistent cough”.

Tubridy, who is 46 years old, confirmed last week that he had tested positive for the virus.

Oliver Callan stood in as host for The Ryan Tubridy Show on RTÉ Radio 1, while Miriam O’Callaghan presented the last two episodes of The Late Late Show.

Returning to present his Radio 1 show for the first time since being diagnosed with the virus, Tubridy said he was “very, very fortunate”.

“I should fill you in on that good fortune just briefly, and it’s not to gloat or anything like that. It wasn’t a particularly lovely thing to experience but I was very fortunate in the sense that I had this persistent cough,” Tubridy said.

11. Fast forward to the show returning in Sep 2020 & Ryan spoke of Covid

"savaging our grand parents"

and the population "playing Russian roulette with the lives of our healthcare

workers"

as well as us deciding "we didn't want the schools to stay shut"

12. Once he had finished pointing the finger at the watching public he said

"The vaccine is coming. We're almost there. I'm sure of it"

If you haven't seen this it is essential viewing. Communist China could learn a thing or two.

13. Now the most watched TV programme every Christmas is the "Toy Show". 500,000 people sit down with their families to watch it.

It was a wonderful opportunity to give the country hope. Ryan & RTE doubled down. What actually took place can only be described as evil.

14. The children in the show were ruthlessly used to plug the Covid narrative although it was very cleverly crafted. It was done in such a way that most of the watching public had no idea what was happening.

Were behavioural psychologists used ? Honestly I don't know.

15. Here are some clips from the show. Ryan said to Adam

"You can't give him a hug because of the thing. You can give him a virtual hug" @ 1.18 min

The "thing". How to terrify watching children trying to instil into them that they shouldn't hug anybody

The Late Late Show

Noah was so excited to meet the Edge then to say that to him was outrageous. All very deliberately done.

17. The most horrific clip of all was the scripted role play.

Saoirse spoke about testing for covid, reporting symptoms, close contacts, regurgitation stations, the v, quarantine etc

How would a young girl know any of this

A terrifying watch

18. What was particularly concerning was the reaction of the hoodwinked public. The majority thought it was a brilliant show. They just didn't realise they had been deceived and the kids were being used.

Some did though as this excellent letter shows that was sent in to RTE

I think a lot of us needed this tonight. Feeling helpless for too long. Being able to do more than worry was needed by a lot. That little girl is inspiring. All the kids are, but gosh she's precious.

Delighted to be a part of something positive. Massive thanks to Tubs #RTEToyShowAppeal

The letter below was sent to RTE by a deeply concerned member of the public

"To whom it may concern,  
I am writing to you because to be honest I am absolutely fuming and beside myself with frustration and utter disgust.  
This year has been the most challenging year of all of our lives

This year has been the most challenging year of all of our lives. There is so much fear, anxiety, hurt and concern and not one of us hasn't been touched in some way...

I have four beautiful grandchildren, from the ages of 7 down to 2, they are my world and my most prized treasured possessions. Like all children in Ireland the Toy Show is such a treat and signals the lead in to Christmas. But tonight's show was nothing but another 'unelected government' propaganda filled opportunity for our state broadcaster to push the untested and rushed vaccine. To say I am absolutely disgusted is an understatement.

The children of this country have been put through the ringer for 9 months and you guys couldn't just give them just one night of Christmas joy where they could just be children ... instead you think it is ok to use and manipulate them by having them simulate, advertise and promote medication and pharmaceuticals.... this is tantamount to child abuse and I'm sure if I research I'll find that it may be illegal or at the very least completely unethical

This country can see clearly the one sided, bought and paid for, government back side kissing propaganda machine that you truly are.. a place where career comes before humanity and the

fairness of debate or opposing views are banned and totally prohibited.

I understand that the person reading this email has bills to pay, maybe a mortgage, a family to feed and a life and therefore just obeys orders (self preservation) but I also know that the person reading this email most likely knows the truth about the PCR test being extremely questionable, maybe knows that eminent doctors, scientists, epidemiologists who bring a different perspective, a more hopeful and happier reality, based on scientific facts are banned, muted, sacked and their character assassinated...

Your gut knows deep down that something is not right.... and if it doesn't I recommend that you personally do a little research and see what is really happening to our people and our world.

Tonight on the Toy Show children were used as cannon fodder. A ploy and a pawn for big pharma and vested interests.... as a media entity you are already skating on very thin ice and tonight's despicable behaviour has nailed many a new nail into the coffin of RTE.

We the people are not deaf, we are not blind and we are most definitely not stupid.

The truth will surface and I guarantee you, the Irish people won't ever forget the role that RTE have played in this charade. You should all be ashamed of yourselves. You are proven to be hypocritical with your non masked, non socially distanced gatherings , claiming that it wasn't really planned but there were balloons and a cake so clearly it was planned..... those of you who day after day shove rules and regulations down our throats don't even abide by them yourselves. But you said 'sorry' so that makes it all better..You got caught, that's the only reason you were sorry...."

19. Next up was promoting the v on the show. Ryan's guest was Prof Luke O Neill who would turn up to the opening of an envelope. Everyone knew his face.

The heavily pharma conflicted Professor was the perfect salesman to use to sell it to the public.

[youtube.com/watch?v=B8BBLJ...](https://youtube.com/watch?v=B8BBLJ...)

20. The relentless vaccine cheerleading didn't stop there. They even had a "Live Syringe Session" where people got the v live on TV.

Ryan and RTE had veered very far from being a light entertainment programme & had now entered a whole new ghoulish realm

21. Now Ryan hates to be left out of anything and had previously said "I'll happily do that, I'll take the vaccine on TV, I'll do whatever I have to do to get us out of this corner." A hero

We are still waiting to see his live vaccination or did I miss it [irishmirror.ie/tv/rtes-ryan-t...](http://irishmirror.ie/tv/rtes-ryan-t...)

22. To show how successful the v programme was and to further increase uptake 6 pensioners who had cocooned & got the v were invited onto the show.

The carrot was if you get the v, you will get all your freedoms back.

How is that going ?

**The Late Late Show**   
@RTELateLateShow 

After 14 months cocooning at home, we welcome six fully vaccinated pensioners, Vera, Kathleen, Fintan, Tommy, May, and Tommy to studio as they excitedly embrace their newfound freedoms 🙌🙌

23. RTE and Ryan were also very much at the forefront for the use of vaccine passports for a live audience. Only those who got the v could attend the show live in person.

Sounds like a blessing in disguise.

24. With the show returning in September 2021 Ryan started to trend on Twitter for all the wrong reasons. He said that guests should be disinvited from weddings if they didn't get the v.

Ryan was now advocating for discrimination and also dividing people

**JRD**  
@JRD0000

Ryan Tubridy's endorsement of discrimination against wedding guests based on vaccination status. Ironically, he bemoans the friction this is causing, while celebrating the thing causing the friction.

25. Ryan has willingly participated in this 18 month charade. His pay cheque is too important. He is as complicit as the politicians, NPHEt members, ISAG members, journalists etc.

He has had an abundance of opportunities to stand up & tell the truth but has failed to do so.

26. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
