1. “Who Is Profiting In The Beacon Hospital From Covid Tests & Vaccinations”

It won't come as any surprise that a hospital benefits in times of a pandemic. The Beacon Hospital has the market cornered from Covid tests to vaccinations.

🧵 1/16

2. The Beacon Hospital has been in the news recently for vaccinating teachers from St Gerards with leftover 🪡. The CEO of the hospital Michael Cullen admitted that the teachers who received the vaccines are at the same school that his children attend

[irishtimes.com/news/ireland/i...](https://www.irishtimes.com/news/ireland/i...)

3. What is of more interest however is who the owner of the Beacon is. Ireland's very own media baron Denis O'Brien bought the Beacon Hospital in 2014. It is entirely privately owned

en.wikipedia.org/wiki/Beacon_Ho...

4. Nothing wrong with the you would think except it is the same Denis O'Brien who has attended multiple Bilderberger meeting as well as being an attendee at the World Economic Forum and an agenda contributor

weforum.org/agenda/authors...

5. The article he wrote for the World Economic Forum is really quite telling. Its called “How will the Fourth Industrial Revolution change the future of work?”

weforum.org/agenda/2016/01...

6. Prior to the WEF he was also heavily involved with the Global Irish Economic Forum. This coincidentally was organised by David McWilliams who also contributes to the WEF and is a Young Global Leader which is a site owned by the WEF.

7. But where does the Beacon Hospital fit into all this you may ask. The Beacon Hospital is doing rather well out of the “pandemic”. They have set up Covid Suites where they provide tests but that’s not all they also do antibody testing as well.

beaconhospital.ie/department-ser...

8. To complete the grand slam they are doing mass vaccinations as well.

“We are proud to partner with the HSE in their rollout of the Covid-19 vaccination programme, making us the first private hospital in the country to open a mass vaccination centre”

beaconhospital.ie/department-ser...

9. I’m sure the fact that O’Brien is a buddy of Ireland’s Tanaiste, Leo Varadkar, and fellow WEF member has nothing to do with the Beacon getting the vaccination business. Simon Coveney is also a fellow Bilderberger as well.

10. The Beacon will undoubtedly profit handsomely from it. O’Brien is profiting nicely from the “pandemic”. He is a billionaire with a variety of business interests (including Digicel, Communicorp, Independent News & Media (up until last year) Irish Water and Topaz Energy).

11. He also has huge influence over the Media as he owns so many of the radio stations including Newstalk, Today FM, 98FM, SPIN 1038, FM104 and SPIN South West. O’Brien also owns both of Ireland’s independent (non-national radio stations).

12. If you have been listening to the radio you will undoubtedly have heard the non-stop fear and propaganda on the radio stations about CV. One can only assume that the orders are coming from the top.

13. Like the propaganda arm of the government RTE, once you control the message across the various media platforms people begin to believe everything they are told.

14. The psychological manipulation of the Irish people & worldwide has been extraordinary. RTE & the various Denis O'Brien radio stations have cornered the media market hence the propaganda message has been taken to a different level and he is profiting from it.

15. It certainly seems to be the case of jobs for the boys. The spiders web is really quite intricate. If you are remotely connected to the World Economic Forum and have influential friends your pockets will be all the better for it.

16. I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
