## 1. Why Did Boris Johnson Really Invite 20 Of The Most Powerful People On The Planet to Dinner In Downing Street

Why is it that at least 8 attending are members of the World Economic Forum as are the companies they work for.

New 🧵 1/17

2. It is no coincidence that 20 of the world's most influential business leaders sat down for dinner on 18th Oct. The 19th is a watershed day to renew the temporary provisions of the Coronavirus Act 2020 into 2022

[commonslibrary.parliament.uk/research-brief...](https://commonslibrary.parliament.uk/research-brief...)

3. If this is voted through then in all likelihood the UK can expect to see additional restrictions in the run up to Christmas or after such as v passports, further lockdowns etc.

Before we look at why these leaders were there we have to look at who they are.

#### 4. Boris Johnson, United Kingdom Government

There are also 21 other UK politicians in the WEF. No coincidence.

12. The first thing to jump out is that they are all in Banking & Finance apart from Johnson & Gates. It would seem a perfect opportunity to discuss a govt controlled digital currency which Rishi Sunak has already referenced.

Calvin ✓  
@calvinrobinson

Another ~~conspiracy theory~~ spoiler:

A government controlled digital currency “issued directly by the Bank of England.”

“Re-shaping ... the way people interact with money and payments.”

13. To do that you need to have a Digital ID in place which is achieved via vaxpassports.

We can only assume that Johnson is having his knuckles rapped for giving the UK too many freedoms over the summer months.

It is highly likely that he is being reined in by the group.

14. Officially

"Boris Johnson will host 20 of the world's most influential business leaders on Monday evening as he urges them to provide a “rocket boost” for “global Britain”, as

the UK emerges from the coronavirus pandemic and life outside the EU"

Unofficially its different

15. There was also a 'B' list dinner hosted by Rishi Sunak for business leaders who failed to make the cut. There is also going to be a discussion on the Green economy in the run up the COP26 climate change summit in Glasgow.

Everything is geared towards UN Agenda 2030

16. The next few months will be very interesting for the UK to see what happens. First things first though is to see if the Coronavirus act is extended.

If it is then you can expect fireworks over the coming months.

17. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
