1. How Are George Soros & Bill Gates Connected In Ireland Via Amnesty International & Oxfam

Earlier in a thread on George Soros I revealed that Soros had funded Amnesty to the tune of 235k but what is the connection to Bill Gates

17. Amnesty International Ireland \$235,114.

The Times in the UK claimed that Soros' donations were unlawful.

2. Buried away in the depths of the Amnesty International web site is a page called “A Fair Shot”.

You wouldn't know this page existed except I stumbled across it by chance.

[amnesty.ie/a-fair-shot-co...](https://www.amnesty.ie/a-fair-shot-co...)

3. Did you know that Amnesty has co-founded the Peoples Vaccine Alliance Ireland [peoplesvaccine.ie](https://www.peoplesvaccine.ie) to call on the Irish government to support a People's vaccine for developing countries.

Sounds very noble doesn't it ?

4. On the 8 July 2021 they marked the official launch of the national campaign for a People's Vaccine via Zoom call. Dr Mike Ryan participated on the call and on the page is a quote by President Michael Higgins

5. ‘Solidarity, in an inter-dependent world, must mean . . . standing shoulder to shoulder with those in other countries, especially poorer nations with fewer financial resources, so that, for example, vaccines are made available, accessible and affordable for all.’

6. Most interestingly of all though is when you scroll down to the bottom of the page you see this

This website is owned by Oxfam Ireland on behalf of the People's Vaccine Alliance

Ireland.

Oxfam has been funded more than \$110 million by BMGF.

7. If you are looking for a connection between Soros and Gates you have to go down a few rabbit holes but it is there.

Just last week they jointly bought a diagnostics firm

Both are also "philanthropists" and love to "give away" money. Of course there is no ulterior motive.

Bill Gates and George Soros back acquisition of UK diagnostic technology group Mologic

Supported from Bill and Melinda Gates, the acquisition is part of the launch of Global Access Health (GAH), a social enterprise that seeks to expand access to affordable medical technology.

8. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
