1. Who Is Dr Ray Walley, The Latest NPHET Stooze To Chastise The 🇮🇪 Public About Misbehaving And Not Obeying The Rules ?

Dr Ray Walley is a Member of the National COVID-19 GP Liaison Committee & has been making a name for himself on TV & Radio for all the wrong reasons 🧵 1/25

2. He is also a full-time General Practitioner based in Dublin and is a GP at the National HSE Reception Centre for Refugees / Asylum seekers. He is a member of the IMO Council Committee, GP Committee and the IMO International Affairs Committee.

3. Dr Walley is also a Board member and Head of Delegation to CPME since 2016 and is a member of the Irish Delegation to UEMO (European Union of General Practitioners). Dr Walley is quite a busy man between being a GP and all his other activities.

cpme.eu/ex-co-members/

4. So what else do we know about Dr Walley. Back in 2013 Dr Walley was Chairman of the IMO where he was defending 6 GPs who were earning more than 600k per annum for treating patients subsidised by the State under the medical card schemes.
5. The top earner was Dr Andrew Jordan who earned €729,485 whilst Walley earned €348,251. Nice business if you can get it. I never knew GPs could earn so much money. It seems infinitely more than some Consultants earn

irishtimes.com/news/health/du...

6. What else do we know about Dr Walley. He seems to like the World Economic Forum and some of the tweets they put out. Maybe he is one of those people employed to like their tweets as not many people seem to like them. I wonder why.

7. Just recently Dr Walley has been wheeled out in front of the cameras to lecture the Irish public on how to behave in a "pandemic".

One of the reasons for this could be that people are getting tired of the same old faces in NPHEt and need a new face.

8. In his most recent TV appearance Walley said "People are still making the same mistakes when it comes to the basics, such as assuming that their symptoms are not Covid-19. Any cold symptoms are Covid until proven otherwise"

Dr Ray Walley says people are still making the same mistakes when it comes to the basics, such as assuming that their symptoms are not Covid-19. Any cold symptoms are Covid until proven otherwise, he says. | Read more: bit.ly/2Njve7W

9. He also said family meetings are driving infections, and urges people to keep their contacts low. He says one family visited a loved one in hospital who was dying with Covid, and the entire family contracted the virus

Nice one Ray. Very compassionate

Dr Ray Walley says family meetings are driving infections, and urges people to keep their contacts low. He says one family visited a loved one in hospital who was dying with Covid, and the entire family contracted the virus. | Read more: bit.ly/2Njve7W

10. Just 24 hours later he appeared on Newstalk saying sharing Covid-19 case studies 'isn't about victim shaming, it's about education'

You could have fooled me. I also forget to mention that Walley is a GP trainer. You have to wonder what he is teaching

[newstalk.com/podcasts/high...](https://www.newstalk.com/podcasts/high...)

11. What isn't widely known about Dr Walley is that he is also a Director of Medisec Ireland. As well as being a Director he also serves on the GP advisory panel for the same company.

[medisec.ie/about/](https://www.medisec.ie/about/)

12. Medisec is an Irish company, committed to arranging professional medical indemnity insurance and providing assistance, support and peace of mind for doctors in Ireland since 1994.

13. Medisec says that they are non-profit and has 2,300 GP members

Here's the interesting part.

New Medisec members have their insurance underwritten by MedPro. MedPro is a division of Berkshire Hathaway.

ABOUT MEDPRO

MedPro are a division of Berkshire Hathaway European Insurance DAC (BHEI), a Berkshire Hathaway company based in Dublin and authorised by the Central Bank of Ireland. BHEI maintains very competitive financial strength ratings of AA+ (Standard & Poor's)*.

The MedPro division of BHEI benefits from a consulting relationship with MedPro Group, a Berkshire Hathaway company based in the United States and market leader for medical professional indemnity insurance. MedPro Group's record indicates that it has protected the assets and reputations of the healthcare community since 1899, building extensive expertise in medical malpractice and claims management and developing tailored patient safety and risk solutions for healthcare professionals.

MedPro Group has more than \$1 billion in annual premium and over 200,000 healthcare practitioners trust MedPro Group for their professional indemnity insurance.

* S&P AA+ financial strength rating assigned to BHEI on 17 May 2019.

14. Just in case you hadn't heard of BH, it is owned by Warren Buffet. Buffet happens to be Bill Gates mentor and runs the BMGF with him. Small world isn't it. Every trick in the book that Bill has learned in the area of "philanthropy" can be attributed to Buffet.

Bill & Melinda Gates Foundation

The Bill & Melinda Gates Foundation, guided by the belief that every life has equal value, is working to help people lead healthy, productive lives. Based in Seattle, it is led by Chief Executive Officer Mark Suzman, under the direction of Bill and Melinda Gates and Warren Buffett. The foundation supports work in over 100 countries.

Headquarters
USA

15. People are probably wondering why Walley is being wheeled out in front of the cameras. That may have something to do with being a "trainer" and his vice-presidency of CPME . The Standing Committee of European Doctors (CPME) represents national medical associations in Europe.

16. They are committed to contributing the medical profession's point of view to EU institutions and European policy-making through pro-active cooperation on a wide range of health and healthcare related issues.

17. The CPME support the "Coalition for Vaccination". Coalition for Vaccination brings together European associations of healthcare professionals and relevant student associations in the field. It was convened by the European Commission in 2019.

Interesting timing 2019

18. The Coalition aims to support delivering accurate information to the public, combating myths around vaccines and vaccination, and exchanging best practices on vaccination. Healthcare professionals' role is to reassure people that vaccines are safe and effective.

19. They launched 3 videos in April 2020

How doctors can promote uptake of vaccines among patients. At 1.45 a doctor says

“Herd Immunity only works when the majority of people in the pop are vaccinated and this means around 95% of the population”

No natural immunity at all

20. In the 2nd video they say “Vaccination should be regarded as a social responsibility and not an individual choice” and in the 3rd video said “Doctors, nurses, pharmacists and others who are in contact with patients must be vaccinated”

Fascism ?

youtube.com/playlist?list=...

21. Soon after the Coalition for Vaccination had launched The Global Vaccination Summit on 12 September 2019 in Brussels, Belgium. The event took place under the joint auspices of the European Commission President Jean-Claude Juncker and WHO Director Tedros Ghebreyesus.

ec.europa.eu/health/vaccina...

22. It was a 400 invite only event. I don't know if Walley was there but the CPME would definitely have been due to the "Coalition for Vaccination" having been set up the same year. All the big guns were there Pfizer, Bill & Melinda Gates Foundation, GAVI, UNICEF, Facebook.

23. One of the roundtable goals was to tackle online disinformation. (Top of Page 4). This is very reminiscent of what happened at Event 201 a month later. The exact same playbook.

ec.europa.eu/health/sites/h...

24. A very interesting timeline appeared in 2019.

Coalition for Vaccination set up. The Global Vaccination Summit Sep 2019. Event 201 October 2019. The Global Vaccination Safety Summit December 2019. 1st case Covid end Dec 2019

Ducks were lined up rather well wouldn't you say

25. Seems Walley is the perfect man to be on TV. He would seem to be the logical choice due to his connections to “Coalition for Vaccination”. He also has his fingers in many pies which seems to be a prerequisite to be in any position of authority in 

Please R/T the 1st tweet

This guy Walley is something else. He says of Ronan Glynn

“The gratitude needs to be expressed by our populace to Ronan Glynn not the other way round - would they rather he tell lies”

Gratitude & Lies in the same sentence.

Let's see how that tweet ages.

Thanks to [@angiebeeb](#)

He said the theme of the briefing was gratitude to the vast majority of people who are doing the right thing
