[T Read on Threadder](#)

1. “Want To Hear What President Lukashenko From Belarus Has To Say About How The World Has Managed Covid”

This is dynamite stuff. I don't know when or where he gave this speech but it speaks volumes. And he has way more to say apparently 🍿 🍿 🍿

New 🧵 1/13

2. Lukashenko has been keeping a very low profile for the last year. Hardly surprising considering what happened to Tanzanian Premier John Magufuli.

He would want to make sure he has 24/7 protection for his own safety as he has correctly ignored lockdowns.

3. My Russian isn't all that good so you'll have to bear with me. Only joking, I transcribed it from the subtitles. The subtitles aren't perfect but you'll get the drift.

It's really short but he packs a lot into the 2 minutes.

4. Start: With this hysteria, we have practically stopped the economy of the whole world. And also the Russian Federation, which is very much like us, we are practically living in the same conditions, they reduced production too. You see what's happening in the economy.

5. I already criticised it today but when Trump declared a state of emergency in America, I will openly say that in my opinion, this is extraordinarily short sighted and stupid, of the US leadership.

6. Every spring, we have a virus. Now here comes some Coronavirus. For two months I have personally analysed the death rates for Belarus. I have compared January and February in 2018 and 2019 with 2020.

7. We have a general decrease in the death rate by 15%, and nobody has died here from pneumonia and Coronavirus in two months. So why would we close and make noise when this is all over, not only the virus but also the hysteria.

8. I have a lot of interesting things to tell you. A lot. But first consider these two questions. First question. Is the Coronavirus a man-made infection, or does it pop out of thin air ? Who benefits from this virus ?

9. Second question, we won't answer that question yet, but tell me, in the world starting with my fellow politicians, then down the ladder and others, have they tried to use this viral disease or hysteria for their goals and interests.

10. Think about these questions. Who wants to take advantage of this ? Who declared this a military matter ? Yellow vests should be removed from the streets. For some, the reasons are elections, for others, something else.

11. Everyone twists hides and plays with fire. We will talk about this when it is all over. END

Here's the video if you prefer

12. All I can say is watch this space. When I hear of anything else from Lukashenko I will let you know. He is seriously going to spill the beans one day. For now though its imperative he "stays safe" (about the only time I agree with that saying)

13. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
