Dec. 10, 2021 · 8 min read

[T Read on Threader](#)

1. Why Are The World Economic Forum (WEF) & Rockefeller Foundation (RF) So Intent On Implementing A Digital ID, Digital Currency & Social Credit Score System ?

Stick with me till the end as I have some news hot off the press which will join up all the dots.

New 🧵 1/35

2. A few weeks back I said I would write a thread on a white paper on Digital currency put out by the World Economic Forum.

It was only when I was researching it that I realised that they had written 7 other ones before it. I started it and switched off after 5 pages.

Theme 1

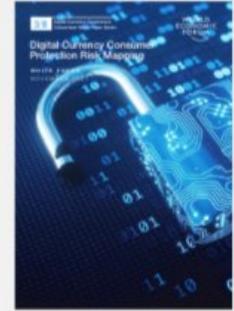

Regulatory Choices

White Paper #1:
The Role of the Public Sector and Public-Private Cooperation in the Era of Digital Currency Growth

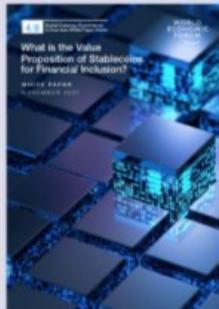

White Paper #2:
Regulatory and Policy Gaps and Inconsistencies of Digital Currencies

White Paper #3:
Digital Currency Consumer Protection Risk Mapping

Theme 2

Value Proposition for the Underserved

White Paper #4:
What is the Value Proposition of Stablecoins for Financial Inclusion?

White Paper #5:
Blockchain-Based Digital Currency and Tools for Cross-Border Aid Disbursement

Theme 3

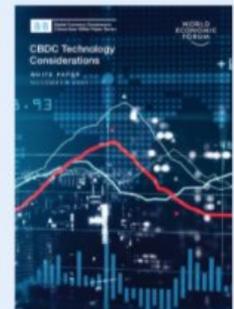

Technology Choices

White Paper #6:
Privacy and Confidentiality Options for CBDC

White Paper #7:
Defining Interoperability

White Paper #8:
CBDC Technology Considerations

3. It reminded me of trying to read Klaus Schwab's Great Reset. Awful rubbish. Instead I have decided to try and put all the jigsaw pieces together to try and explain the bigger picture of what is happening.
4. I'm not going to go into the specifics of blockchain, crypto etc as frankly I'm not qualified to discuss them. I have however listened to hours of videos from three of the brightest women commenting on Digital IDs. Catherine Austin Fitts, Alison

McDowell & Melissa Ciummei.

5. So what was the purpose of the v ? It is very obvious by now that it has nothing to do with health.

Apart from making vast sums of money for Pharma and their investors it has enabled the rollout of Covid/Vaccine passports.

6. Globally we are now seeing you can only get entry to locations by showing you've had the v and producing ID. The thing is they are not vaccine passports but data passports or participation passports.

All the coercion people have seen is so you can participate in society.

7. The vaccine has moved gradually down the age groups since the v was launched in January 2021 and we are now at the stage of children getting it. It is basically morphing into a Digital ID. This hasn't just come about overnight.

How long has this been planned for.

8. In 2016, ID2020 was set up. Interesting name, considering when covid appeared. They say

“But doing digital ID right means protecting civil liberties and putting control over personal data back where it belongs...in the hands of the individual”

id2020.org

9. What is interesting though is who the partners are for ID2020. The 4 main Alliance partners are Gavi - The Vaccine Alliance, Microsoft, Rockefeller Foundation (RF) & Accenture. All 4 are WEF members. Gavi has also been funded millions by Bill & Melinda Gates Foundation (BMGF).

Alliance Partners

Founding Partners

General Partners

Pro Bono Support

The Bill & Melinda Gates Foundation

Gates Foundation pledged US\$ 750 million to set up Gavi in 1999.

The Foundation is a key Gavi partner in vaccine market shaping.

Bill and Melinda Gates' realisation in the late 1990s that rotavirus was killing half a million children every year was one of the events that led them to set up their [Foundation](#) in 1994.

"Bill Gates often tells the story of reading a newspaper article about the leading causes of childhood death, including rotavirus. How is it possible, he wondered, that a disease that now kills 600,000 children per year is the focus of so little attention and investment?" recalls Dr Tachi Yamada, former president of the Foundation's Global Health Program.

Since then, vaccines have become the Gates Foundation's biggest investment.

The realisation that children in developed countries had access to vaccines while children in developing countries were dying for lack of them prompted the Foundation to invest as a founding partner in Gavi.

BILL & MELINDA
GATES foundation

■ [SEE THE FOUNDATION >](#)

SEED MONEY

The Foundation's initial five-year pledge of US\$ 750 million in 1999 provided the seed money to launch Gavi. Since then, additional pledges have brought the Foundation's total commitment to Gavi to date to over US\$ 4 billion.

By supporting Gavi, the Foundation – which has a permanent seat on the Gavi Board – aims to accelerate access of developing countries to vaccines and support research into health solutions for these countries that are effective, affordable and sustainable.

In 2009, Bill Gates expressed the hope that the new rotavirus vaccine could reach half the children who needed it within six years.

More than half of all Gavi-supported countries have introduced the [rotavirus vaccine](#) and more than three-quarters have included [pneumococcal vaccine](#), which protects against the main cause of pneumonia, into their immunisation programmes.

Gavi, the Vaccine Alliance

Gavi, the Vaccine Alliance is a public-private global health partnership committed to saving children's lives and protecting people's health by increasing access to immunization in poor countries. It brings together developing country and donor governments, the World Health Organization, UNICEF, the World Bank, the vaccine industry, research and technical agencies, civil society organizations and private philanthropists.

Headquarters
Switzerland

Visit the Gavi, the Vaccine Alliance website →

Rockefeller Foundation

The Rockefeller Foundation advances the new frontiers of science, data, policy and innovation to solve global challenges related to health, food, power and economic mobility. As a science-driven philanthropy focused on building collaborative relationships with partners and grantees around the world, the Rockefeller Foundation seeks to inspire and foster large-scale human impact that promotes the well-being of humanity around the world by identifying and accelerating breakthrough solutions, ideas and conversations.

10. Now why would GAVI who are a vaccine alliance company have anything to do with a Digital ID company. That's pretty obvious by this stage. The v passport.

RF are also involved with the Commons Project Foundation which is a covid pass for travel.

thecommonsproject.org

11. On their site they say

"We believe that everyone should enjoy the full benefit of technology and data while

maintaining control over their digital lives. We believe that communities are stronger when data is open and can be shared for the benefit of all"

12. On July 9th 2020, The Commons Project, The World Economic Forum and The Rockefeller Foundation came together (see image below)

Interestingly the Commons Project website was registered in 2018 before Covid had entered the public consciousness.

thecommonsproject.org/commonpass

International Cooperation.

On July 9th, The Commons Project, The World Economic Forum and The Rockefeller Foundation convened more than 350 public and private sector leaders from 52 countries to come together to design a common framework for safe border reopening.

13. Fast forward to 27 Aug 2021 "The Digital Documentation of Covid-19 Certificates" was launched by the WHO (WEF member). The document was funded by BMGF and RF.

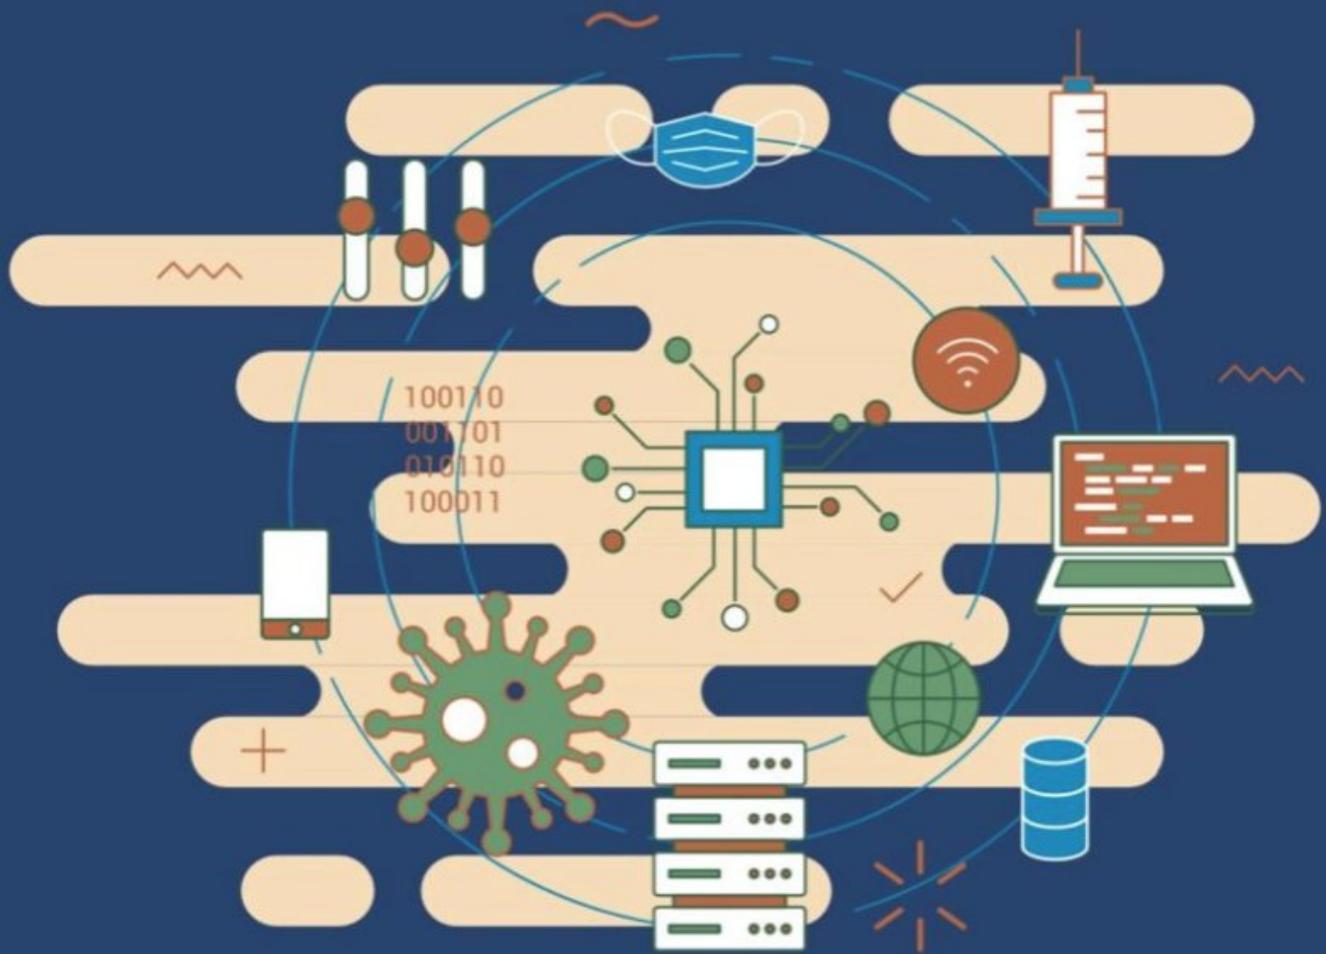

The WHO, BMGF & RF were also at Event 201. Pre-Covid.

Just one big coincidence.

Digital Documentation of COVID-19 Certificates: Vaccination Status

TECHNICAL SPECIFICATIONS AND IMPLEMENTATION GUIDANCE

27 August 2021

(Center for Implementation and Innovation in Health Policies), Buenos Aires, Argentina), Elizabeth Peloso (Liz Peloso Consulting Inc.), Alain Poy (WHO), Magdalena Rabini (WHO), Maria Soc (PATH), Soumya Swaminathan (WHO), Martha Velandia (WHO), Petra Wilson (Health Connect Partners), and all members and observers of the Smart Vaccination Certificate Working Group.

This work was funded by the Bill and Melinda Gates Foundation, the Government of Estonia, Fondation Botnar, the State of Kuwait, and the Rockefeller Foundation. The views of the funding bodies have not influenced the content of this document.

Agenda Events Reports Platforms

World Health Organization (WHO)

The World Health Organization, the United Nations specialized agency for health, was established in 1948 with the objective of the attainment by all people of the highest possible level of health. Health is defined in its constitution as a state of complete physical, mental and social well-being and not merely the absence of illness or infirmity. It is governed by 192 Member States through the World Health Assembly, whose main tasks are to approve the World Health Organization programme and budget for the following two years and to decide major policy questions.

14. Back in 2010 The Rockefeller Foundation in their document "Scenarios for the future of technology and International Development" had a scenario called lockstep where they spoke of Biometric IDs.

🇮🇪 & 🇬🇧 COVID 📖 📖 📖

@ThreadsIrish

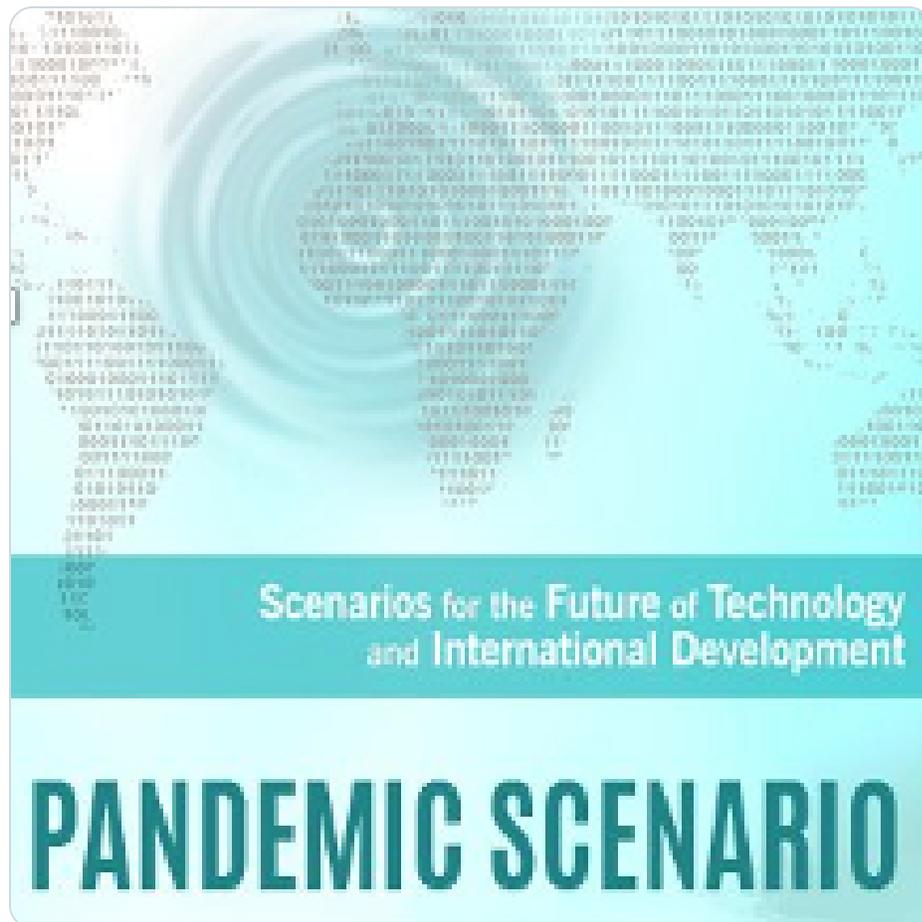

1. Why Did The Rockefeller Foundation Publish A Document in 2010 That Is Eerily Similar To Events That Are Taking Place Today in Covid Times ?

Before we look at it we need to look at the other players involved to join the dots.

Buckle up. Lots of 🐇 🏎️ ahead

At first, the notion of a more controlled world gained wide acceptance and approval. Citizens willingly gave up some of their sovereignty – and their privacy – to more paternalistic states in exchange for greater safety and stability. Citizens were more tolerant, and even eager, for top-down direction and oversight, and national leaders had more latitude to impose order in the ways they saw fit. In developed countries, this heightened oversight took many forms: biometric IDs for all citizens, for example, and tighter regulation of key industries whose stability

15. One of the goals of biometric IDs is surveillance. With regards to the use of technology they said

"shaped by governments dual desire to control and monitor their citizens"

What better way to control and monitor than by using a Digital ID

Scenario Narratives

Lock Step

Clear Together

Hack Attack

Smart Scramble

LOCK STEP

A world of tighter top-down government control and more authoritarian leadership, with limited innovation and growing citizen pushback

16. But where does the Central Bank Digital Currency (CBDC) fit in. The fiat currency has failed like all before it & in order to keep the game going they need a new financial system. They need a financial reset.

With a fiat currency you have privacy. With a CBDC you have none.

17. In order to bring in a CBDC, you need a digital ID. In order to bring in a digital ID you need these passports that will all be combined with a social credit score system and a carbon credit system.

This is the goal of UN Agenda 2030

18. Vaccine passports to travel or access premises are the precursor to digital ID wallets. And this digital ID system gives the people in charge the ability to cut your access to funds, health care, travel, food, or anything else whenever they please.

19. They will have complete control over every aspect of your finances. They can dictate where in the economy that you can spend it. They can say that you can only spend it on essential goods. They can tell you which shops you can spend your money in.

20. That sounds incredibly far fetched doesn't it, except it isn't.

Here's why. On 19 Oct 2020 the International Monetary Fund (IMF) hosted a Zoom

call with Kristalina Georgieva MD of IMF, Agustin Carstens General Manager, Bank of International Settlements.

All WEF members

Kristalina Georgieva

Managing Director, International Monetary Fund (IMF)

Managing Director of the International Monetary Fund (IMF) since October 2019. January 2017 to September 2019, Chief Executive Officer, World Bank, during which also served as Interim President of the World Bank for three months. Previously served as European Commission Vice-President for Budget and Human Resources and as Commissioner for International Cooperation, Humanitarian Aid and Crisis Response. 1993-10, held a number of senior positions at the World Bank, including as Vice-President and Corporate Secretary in 2008, as Director for Sustainable Development, Director for the Russian Federation (based in Moscow), Director for Environment, and Director for Environment and Social Development for the East Asia and Pacific Region. PhD in Economic Science and MA in Political Economy and Sociology from the University of National and World Economy, Sofia. 1977-93, Associate Professor, University of National and World Economy, Sofia. Former Visiting Fellow at the London School of Economics and at the Massachusetts Institute of Technology.

Agustin Carstens

General Manager, Bank for International Settlements (BIS)

Became General Manager of the Bank for International Settlements (BIS) on 1 December 2017. Formerly, Governor of the Bank of Mexico from 2010 to 2017. A Member of the BIS Board from 2011 to 2017, was chair of the Global Economy Meeting and the Economic Consultative Committee from 2013 until 2017. Also chaired the International Monetary and Financial Committee, the International Monetary Fund's (IMF) policy advisory committee from 2015 to 2017. Began career in 1980 at the Bank of Mexico. 1999-2000, Executive Director at the IMF. Later served as Mexico's deputy finance minister (2000-03) and as Deputy Managing Director at the IMF (2003-06). Mexico's finance minister from 2006 to 2009. Member of the Financial Stability Board since 2010; Member of the Group of Thirty. MA and PhD in Economics from the University of Chicago.

International Monetary Fund (IMF)

International Monetary Fund (IMF) is an international organization of 188 member countries established to promote international monetary cooperation, exchange stability and orderly exchange arrangements. It seeks to foster economic growth and high levels of employment and to provide temporary financial assistance to countries to help ease balance of payments adjustment. Since it was established in 1944, its purposes have remained unchanged but its operations, which involve surveillance, financial assistance, and technical assistance, have developed to meet the changing needs of its member countries in an evolving world economy.

Headquarters

21. The call was entitled "Cross-Border Payment—A Vision for the Future".

It is however what Carstens said at 24.37 that was most concerning.

youtu.be/mVmKN4DSu3g

22. "For example in cash, we don't know for example who is using \$100 dollar bill today or who is using a 1,000 peso bill. The key difference with the CBDC is that the central bank will have absolute control on the rules and regulations that will determine the use of that..."

23. "...expression of central bank liability and also we will have the technology to enforce that"

If that doesn't frighten you nothing will. By central bank liability they are talking about your money. This is about absolute control of every transaction a person makes.

24. What Carstens is saying is they can't track people if they use cash hence the move to a Digital Currency.

The mechanics behind implementing a Digital Currency are so huge it's hard to fathom.

25. What you would need however is all the major banks on board. This is what the WEF have done. Barclays, Goldman Sachs, JP Morgan, Banco Santander, Deutsche Bank etc.

There is practically no major bank missing from the list. The Rothschild family have interests in most banks.

26. On October 18th 2021 Boris Johnson invited 20 of the most powerful people on the planet along with Bill Gates to 10 Downing Street. They were all bankers and a digital currency was undoubtedly discussed. I detailed it all in this thread.

🇮🇪 & 🇬🇧 COVID 📖 📖 📖

@ThreadsIrish

1. Why Did Boris Johnson Really Invite 20 Of The Most Powerful People On The Planet to Dinner In Downing Street

Why is it that at least 8 attending are members of the World Economic Forum as are the companies they work for.

27. It doesn't end there however. Once a Digital ID is in place it is very simple to roll out a social credit score system.

In China it is already in place. What you buy, how you behave, is tracked and scored to show how responsible you are.

[youtube.com/watch?v=NOk27L...](https://www.youtube.com/watch?v=NOk27L...)

28. Good social credit scores mean you get rewarded with perks like cheap loans and travel deals but bad scores means public shame and worse. You may not be allowed to travel on planes or trains if you don't have the required points.

It is already being trialled in Ireland

It's a walk in the park: Dubs get exercised over digital dollars

Visitors to five parks in Dublin 8 can earn credits if they sign up for exercise-tracking app

🕒 about 6 hours ago

Olivia Kelly Dublin Editor

🔊 LISTEN NOW 2:13

Visitors to St Audoen's Park, St Patrick's Park, Weaver Park and Oscar Square in the Liberties, and Grattan Park in Inchicore who use the app will be rewarded with civic dollars. Photograph: Niall Carson/PA Wire

Dubliners are to be “paid” for a walk in the park with “Civic Dollars” they can cash in for coffee and cake and other goods and services, in an effort to

29. Artificial Intelligence and surveillance cameras will also become the order of the day just like the Rockefeller document predicted.

A more accurate name for the social credit score system would be a

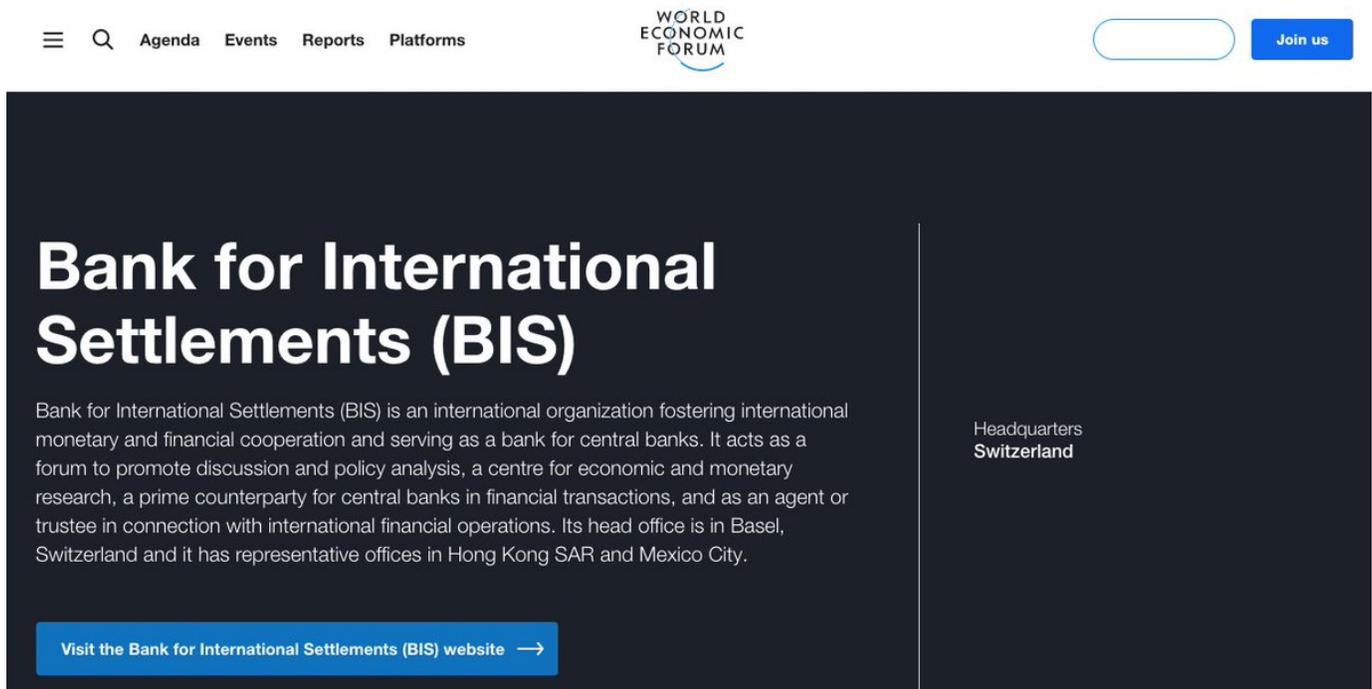

"Citizen Monitoring and Control System"

30. However, things are moving at a rapid pace. According to Reuters (WEF member) on Dec 9th 2021 (last night) the IMF, World Bank, Bank of International Settlements (BIS) & 10 countries have just simulated a cyberattack on the global financial system.

[reuters.com/markets/europe...](https://www.reuters.com/markets/europe...)

31. I wonder why. Anything to do with an incoming Digital Currency. You will remember Agustin Carstens from earlier talking of complete control of the monetary system. He works for BIS.

BIS were in attendance at the "war game" are also in the WEF.

The screenshot shows the top navigation bar of the World Economic Forum website. It includes a menu icon, a search icon, and links for Agenda, Events, Reports, and Platforms. The World Economic Forum logo is centered, and there is a search input field and a "Join us" button on the right. Below the navigation bar, the main content area features a dark background with the title "Bank for International Settlements (BIS)" in large white text. A descriptive paragraph follows, detailing the organization's role in fostering international monetary and financial cooperation. To the right, it lists the headquarters in Switzerland. At the bottom left, there is a blue button with the text "Visit the Bank for International Settlements (BIS) website" and a right-pointing arrow.

☰ 🔍 Agenda Events Reports Platforms

Join us

Bank for International Settlements (BIS)

Bank for International Settlements (BIS) is an international organization fostering international monetary and financial cooperation and serving as a bank for central banks. It acts as a forum to promote discussion and policy analysis, a centre for economic and monetary research, a prime counterparty for central banks in financial transactions, and as an agent or trustee in connection with international financial operations. Its head office is in Basel, Switzerland and it has representative offices in Hong Kong SAR and Mexico City.

Headquarters
Switzerland

32. With this latest cyberattack "war game" there are also potential similarities to the scenario in the Rockefeller document called "Hack Attack" where they talk of nation states losing control of public finances and states going bankrupt.

Technology hackers were also hard at work. Internet scams and pyramid schemes plagued inboxes. Meanwhile, more sophisticated hackers attempted to take down corporations, government systems, and banks via phishing scams and database information heists, and their many successes generated billions of dollars in losses. Desperate to protect themselves and their

Economist headline: “Is the Planet Finally Bankrupt?”

These dire circumstances forced tough tradeoffs. In 2015, the U.S. reallocated a large share of its defense spending to domestic concerns, pulling out of Afghanistan – where the resurgent Taliban seized power once again. In Europe, Asia, South America, and Africa, more and more nation-states lost control of their public finances, along

with the capacity to help their citizens and retain stability and order. Resource scarcities and trade disputes, together with severe economic and climate stresses, pushed many alliances and partnerships to the breaking point; they also sparked proxy wars and low-level conflict in resource-rich parts of the developing world. Nations raised trade barriers in order to protect their domestic sectors against imports and—in the face of global food and resource shortages—to reduce exports of agricultural produce and other commodities. By 2016, the global coordination and interconnectedness that had marked the post-Berlin Wall world was tenuous at best.

33. They do like to announce what's coming. You will also remember no doubt in October 2019 Event 201 predicted the Covid outbreak 7 weeks later.

Fast forward to July 8, 2020 and the WEF hosted Cyber Polygon 2020 which was a month after they announced The Great Reset.

34. The theme of the Cyber Polygon 2020 exercise was “Digital pandemic: how to prevent a crisis and to reinforce cybersecurity on all levels.”

We now have another "war game" on a similar topic except this time it's to do with the global financial system.

Buckle up for 2022

35. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
