## 1. "Did You Know The New World Order Has Constantly Been Mentioned In The Irish Mainstream Media Since June 2020"

The internet has been blowing up in the last 48 hours with people trying to find out about the "New World Order" or NWO.

New 🧵 1/18

2. The reason for it is that Dr Kerry Chant the Australian Health Chief used the term in a press conference which got a huge amount of traction. Naturally the media and fact checkers were out in force to defend her saying it was an innocent slip of the tongue.

3. The attention is always then turned to conspiracy theorists. It is a tried and tested technique when you are on the back foot they begin “ad hominem” attacks to discredit people with genuine concerns.

4. The thing is the NWO is hardly new. The likes of George Bush Sr, John Kerry, Gordon Brown and many others have been talking about it for years. You can see a compilation of well-known people talking about it in this clip.

5. Many people are under the impression that Dr Chant is one of the first people to really talk about it since Covid kicked off in March 2020. She may be one of the first people to get mainstream coverage of it as what she said has gone viral.

6. Would you be surprised to learn that it has been used in the media on the airwaves in Ireland since June 2020. One of Ireland’s most recognisable celebrities (I hate that word) is Ryan Tubridy who hosts “The Ryan Tubridy Show” on RTE Radio 1 and “The Late Late Show” on the TV.

7. Ryan however is just a pawn in a far bigger game.

It seems that Ryan has had many innocent NWO “slip of the tongue” examples on

more than one occasion.

Fact Check that fact checkers.

8. Back on 10th June 2020, a mere week after The Great Reset was announced (3rd June) Ryan was on the airwaves saying

“Its a whole new world order” @ 4.45 mins

9. You could be forgiven for believing that if he had just said “New World Order” once then it was an accident. However, over the course of the next year he said it multiple times.

It was also how he inserted them into a sentence that was particularly intriguing.

10. Fast forward a couple of months and he was at it again in August except this time it was deliberately shoehorned into a sentence which made no sense. It was certainly no accident.

“We also have the new world order today of masks” @ 2.20 mins

11. In continuing with the “New World Order” theme the “Late Late Toy Show” (LLTS) was riddled with references to Covid-19. (For the benefit of anyone reading outside of Ireland over 500,000 people sit down with their families to watch this show about 4 weeks before Christmas)

12. In the run up to it backstage, he said

"The whole show is going to be like something we've never done before & something that everyone at home has never seen before, it's a whole new world order"

May thanks to [@cinnamon\\_suzi](#) for digging out the clip

The fall guy in MSM for Ireland's NWO is Ryan Tubridy. He has used the expression multiple times on radio. Thinking of doing a 📺 on it.

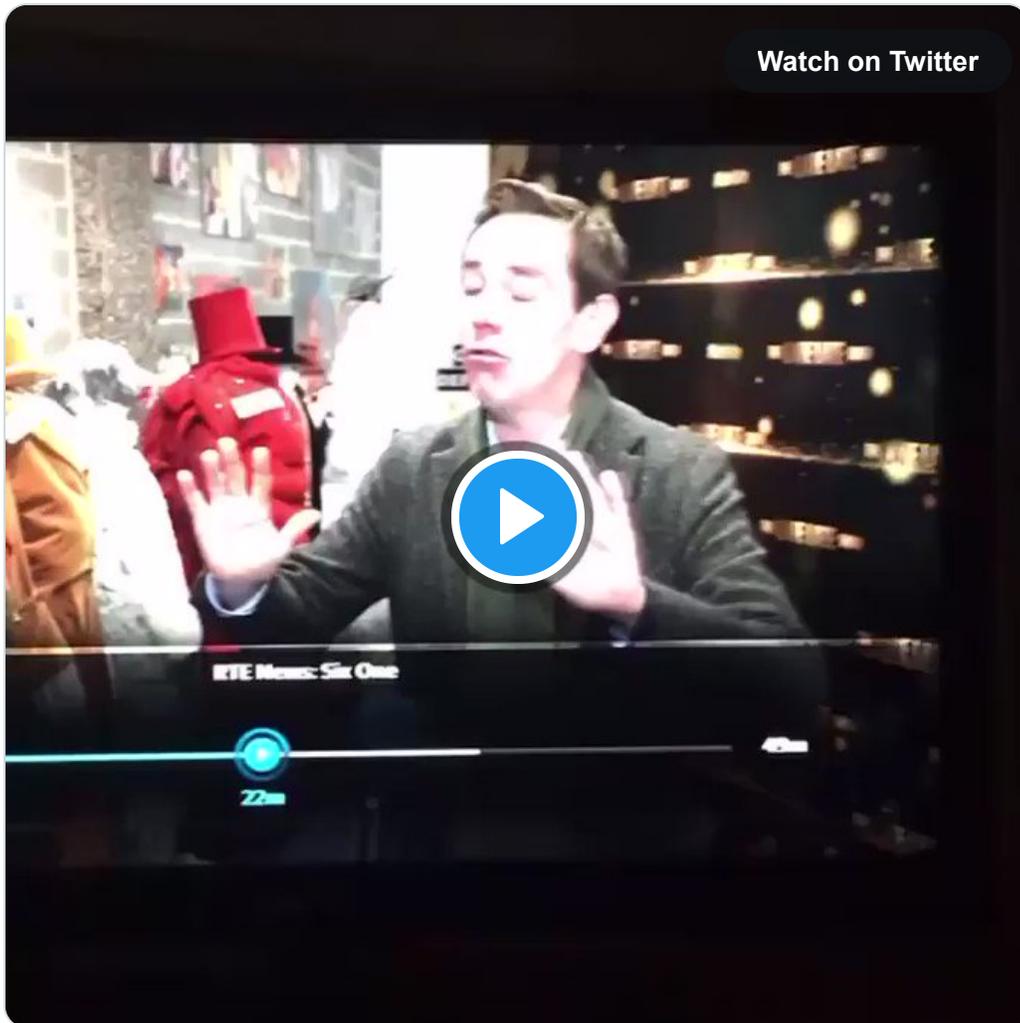

There is one short video clip of him mentioning it prior to the Late Late Toy Show in November.

I don't have a copy. Does anyone ? Thanks

13. He was at it again on January 26th 2021 when he said

“Smittens, part mittens, part sweater, a whole new world order for the meaning of this word” @ 5.40 mins

Seriously, what a load of utter nonsense.

14. He has undoubtedly been doing it multiple times since but these are the only recorded examples I have.

He is also in a position of power. He is watched and listened to by hundreds of thousands every Friday night. However, with “great power comes great responsibility”.

15. As far as Ryan is concerned there has been no responsibility.

He is low down on the food chain and will undoubtedly be discarded when he has fulfilled his role. He is told to push the propaganda and narrative which he does non-stop.

16. He is undoubtedly doing the bidding of his paymasters RTE and therefore by extension the Govt & NPHET. He is obviously under instructions to say and do what they tell him. He is a puppet on a string and is ultimately answering to the World Economic Forum.

17. For people to think that the NWO is new I hate to break it to you. This has been in the planning for years. When you see it being mentioned on a global scale it is no accident.

At least we can claim we beat the Australians at something. We have been saying it for a year.

18. You know the drill 😊 I write these 🧵 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
