1. “Some Little Known Info I Can Guarantee You Have Never Heard About The Great Reset”

Short 🧵 1/11

2. One of my research tools for finding about a topic is to go to [web.archive.org](http://web.archive.org)

What it basically does is archive the internet so you can see an old iteration of a web page, web site etc. I thought I would dig into The Great Reset

3. We can see here that the first time the web site appeared was on May 1st 2010. It redirects to a page called [creativeclass.com/richard\\_florid...](http://creativeclass.com/richard_florid...)

Saved 63 times between May 1, 2010 and March 16, 2021.

Explore captures for this URL

4. On this page is a book called

“The Great Reset: How New Ways of Living and Working Drive Post-Crash Prosperity”

Interesting title though isn't it.

I wonder if Klaus plagiarised a few ideas.

### The Great Reset

#### overview

We tend to view prolonged economic downturns, like the Great Depression of the 1930's and the Long Depression of the late 19th century, in terms of the crisis and pain they cause, rather than as the opportunities they invariably represent. But history teaches us that these great crises are opportunities to remake our economy and society and generate whole new epochs of economic growth and prosperity. These periods of “creative destruction” have been some of the most fertile, in terms of innovation, invention and energetic risk-taking in history, and this is what sets the stage for full-scale recovery.

In THE GREAT RESET, bestselling author and economic development expert Richard Florida provides an engaging and sweeping examination of these previous economic epochs or “resets,” distilling the deep forces that shaped their physical and social landscapes, reshaping economies and societies. Looking toward the future, Florida identifies the patterns that will drive the next Great Reset and simultaneously reshape virtually every aspect of our lives—from how and where we live to how we work to how we invest in individuals and infrastructure, and how we shape our cities and regions. Florida shows how these core elements, when taken together, will spur a fresh era of growth and prosperity, define a new geography of progress, and stimulate surprising opportunities for each of us. Among these forces will be:

- new consumption patterns and new assumptions about “ownership” that are less centered around houses and cars,
- new forms of infrastructure that speed the movement of people, goods and ideas

5. What is also intriguing about this book is that the author is Richard Florida. Richard Florida just happens to be in the World Economic Forum

[weforum.org/agenda/authors...](http://weforum.org/agenda/authors...)

6. The last known time the site was crawled before its new iteration was Dec 19th 2014. It then seems to have vanished off the face of the planet for 2 years.

7. On 7th August 2016 [greatreset.com](http://greatreset.com) was re-registered. That's 4 years before Klaus Schwab pronounced The Great Reset to the world.

The first archived page of the new site seems to be on August 15th 2020, 2 months after Klaus Schwab announced The Great Reset.

11. You know the drill 😊 I write these 📖 in my spare time and would really appreciate if you could retweet the very 1st tweet. Likes are great but retweets are required to reach as large an audience as possible to expose what is really going on behind the scenes. Many thanks.
